What makes us unique

„LIFESTYLE“ À LA FLORIAN WEITZER

and what this has to do
with our approach

For over a century, the Weitzer family has stood for genuine hospitality, entrepreneurial courage, and a keen sense of the changing times. What began as a traditional hotel operation has evolved over generations into an innovative hotel group that uniquely bridges history and the present in its own distinctive way.

Our understanding of hospitality has never stood still. On the contrary: we question the tried and true, consciously break with convention, and create spaces where the essence of life takes center stage. Our properties are not merely places to stay – they are spaces for inspiration, connection and lightness.

With a clear commitment to quality, yet without a rigid star-rating framework, we design hotels where our guests don't just sleep, but live, explore and indulge. And we've been doing this for over 100 years – with heart, conviction, and a passion for continual evolution.

At the two Daniels in Graz and Vienna, we focus on modern minimalism. For business, seminar, or city trips, Hotel Weitzer – centrally located on the Mur, traditionally rooted yet contemporarily interpreted – is the ideal choice. At Grand Hôtel Wiesler and Grand Ferdinand, we bring our concept of Grand Hotels into the 21st century. For us, a good night's sleep and excellent food are fundamental.

"Off Standard" primarily stands for our cosmopolitan spirit and the unique details that define us – made tangible for you in a wide variety of areas: from hammocks or easels in the rooms, to apple trees, bees and e-Vespas you can borrow – and much more.
